Can Tho

[My Portfolio](#)

SUMMARY

Motivated Frontend Developer with 6 months hands-on experience in ReactJS ecosystem. Eager to contribute technical skills in building scalable, responsive web applications while developing expertise toward becoming a Full-Stack Developer.

EDUCATION

09/2021 - 10/2025

Software Engineering

FPT UNIVERSITY

GPA: 3.4/4.0 | **Top 5 IT Faculty** (1 semester) | **Outstanding Student** (2 semester), **Good Student** (4 semesters)

WORK EXPERIENCE

UTA Solution

05/2024 - 11/2024

Intern Front-end Developer

Completed a 6-month internship at UTA Solutions as a Frontend Developer, building web and mobile interfaces with ReactJS, React Native, and GraphQL in an agile team.

PROJECTS

Pago

08/2024 - 11/2024

Front-end Developer

Worked as a Frontend Developer at UTA Solutions on the Pago Farm Management System, building cross-platform apps with ReactJS, React Native, and TypeScript. Developed key web and mobile features like purchase management, chatbot UI, and sensor monitoring.

Boarding house management

05/2025 - 08/2025

Leader & Full-stack developer

Led a 5-member team to build a Boarding House Management System using the MERN stack. Designed system architecture, developed reusable components, and ensured code quality. Delivered an app with room booking, scheduling, and property management features.

CERTIFICATES

May 15, 2023

Basics of Web Development & Coding (University of Michigan)

January 14, 2025

User Experience Research and Design (University of Michigan)
